Career Profile:

Full Stack Developer with extensive experience in managing and developing web applications using modern technologies. Skilled in both frontend and backend development, with a focus on creating functional, efficient, and user-friendly digital solutions.

Technology Summary:

Languages: HTML, CSS, JavaScript (ES6), TypeScript, GraphQL
Frameworks & Libraries: React, React Native, Node.js, SASS
Databases: MongoDB, Postgresql
Tools: Git, Docker, Postman
Platforms: Netlify, Heroku, Vercel

Core Competencies:

- Developing server-side applications and managing authentication
- Creating user-friendly interfaces and collaborating on creative requests
- Implementing APIs and server support for web applications

Professional Experience:

Backend Developer Intern

Airtimeflip Technology • January 2024 - May 2024

- Assisted in developing server-side applications

- Worked on managing user authentication and data

 - Participated in team meetings to discuss project specifications and functional requirements

Freelancing • *June 2021 - December 2023*

 - Developed comprehensive web and mobile applications, utilizing React and React Native for frontend development and Node.js for backend services.

 - Managed multiple projects simultaneously, ensuring timely delivery and adherence to client specifications.

 - Created and maintained server-side applications, focusing on efficient database management and secure user authentication.

 - Designed and implemented RESTful APIs, enabling seamless communication between frontend and backend systems.

 - Built and deployed scalable mobile applications using React Native, enhancing user experience and engagement.

- Collaborated closely with clients to gather requirements, provide progress updates, and incorporate feedback into project iterations.

Backend Developer

Imagine Bytes • November 2020 - April 2021

- Created server-side applications for clients

 - Managed authentication and user data for projects

 - Collaborated with clients on creative requests and specifications

Education:

Federal University of Technology, Owerri
B.Sc. Computer Science (2020 - 2024, Awaiting)
- Member, National Association of Computer Science Students (NACOSS)

Bright Hope Standard College, Rivers State
Class of 2018/2019 - Graduated in 2019 with top grades - Passed WAEC and JAMB exams with flying colors - Gained college admission on merit due to outstanding performance

Currently Studying:
- Mastery of GraphQL, Apollo, and the React ecosystem
- JavaScript Data Structures and Algorithms
- Docker and Kubernetes
- AWS platform
- React Native, Flutter, and Dart

Personal Aspirations:
- Collaborate globally in software development with a reputable tech company
- Build immersive and engaging digital experiences
- Develop software aimed at societal change
- Contribute to humanity and leave a legacy

Hobbies and Interests:
- Coding to relax
- Engaging in discussions about philosophy, music and science fiction
- Enjoying anime, YouTube, and online gaming
- Listening to music and curation
